

## TC2 PRO RACING

### RACING FUEL TREATMENT – ULTRA OCTAN BOOSTER

*New Formula: Detergent and anti-oxidant*

[www.mecatech-performances.com](http://www.mecatech-performances.com)

#### PROPERTIES

- Increases octane number up to 105 depending on the dosage.
- Increases power and fuel efficiency. Faster acceleration. Raise torque at low and high speed.
- Eliminates rattling phenomena and valve seat recession. Protects against risk of seizure.
- Protects against the risk of oxidation and corrosion due to the degradation of gasoline.
- Lubricates and cleans the entire fuel system and high gasoline engine.
- Allows the use of fuels without lead - (SP95 and SP98) in engines designed for Racing Fules or leaded gasoline.

#### HOW TO USE

- Dosage of 5L for 30L leads to an octane rating of 100/102
- Dosage of 5L for 15 L leads to an octane rating of 105
- Compatible with all systems and fuel injection safe for catalyts.

#### PHYSICOCHEMICAL PROPERTIES

- **Color** Amber
- **Odour** strong, typical smell
- **Density at 20°C** 0.85

## SAFETY DATA

	SYMBOL
TOXICITY	Xn - Harmful
FLAMMABILITY	Highly flammable
ENVIRONNEMENT	None

## PACKAGING

- Packaging: Can of 5L or drum of 30L
- **Art. # : 159005 - 159030**
