

MOTO WASH

Concentrated cleaner for bikes

Biodegradable

Trigger spray

TYPE OF USE

Powerful cleaner for the whole motorcycle.

All surfaces : Plastic, synthetic fabrics, paintwork, varnish, metal,...

For Motocross races where BIODEGRADABLE products are especially recommended by the organizers.

PERFORMANCE

Efficiently removes all traces of grease, dust, soil, mosquitoes, brake pad residues,...

Dries evenly.

Leaves a dry anti-corrosion film.

Protects paintwork and varnish.

Biodegradable: MOTUL MOTOWASH is environment friendly. Biodegradable in 23 days at 99% (inherent biodegradability and ultimate biodegradability) according to OCDE 302B method.

RECOMMENDATIONS

Spray generously all over the whole motorcycle using the "wide jet" position on the gun.

Allow to work for a few minutes.

Rinse with water, jet, or steam pressure.

For very dirty parts, repeat the operation using the position "directed jet" on the gun and rub with a sponge or a rag.

Use a soft cloth to obtain a perfect finish.

SECURITY

Refer to the MSDS sheet and the information mentioned on the trigger spray.
